About me

Skilled PHP developer with 7+ years of experience in back-end development and building scalable solutions. Proven ability to architect software and manage projects.

Experience

- **Software Engineer** **ParsPack** Jul 2023 - Now

- **Lead Developer** **GuyanAfzar** Apr 2021 - May 2023
- Managed a team of developers to improve **VOIP** solutions and address inefficiencies in past implementations.
- Developed and delivered customized products for billing platforms that enabled customers to manage costs and monitor call center performance in real-time**.**

- **Lecturer (Part-time)** **MaktabSharif** Dec 2020 - Now
- Lecturer for **back-end** software engineering bootcamps covering programming basics, **PHP**, **Laravel**, **databases**, **best practices**, **design patterns**, **software architecture**, and **deployments**.
- Successfully trained and introduced **+40 developers** to the community in three bootcamps.

- **Back-end Developer** **FANAP** Oct 2018 - Apr 2020
- Developed solutions to automate business processes, such as enabling online ticket purchases for amusement parks.
- Collaborated closely with stakeholder groups to implement a content-based platform for children and teenagers, ensuring that the platform met the needs and preferences of the target audience.

- **Lead Developer** **TaraabarNet** May 2017 - Oct 2018

- Led the development team at Taraabar.net, improving the national transportation system with new solutions.
- Conducted **code reviews** and collaborated with team members.
- Directed team using **Scrum** and **Agile** methodology.

- **Developer Intern** **NarinGames** May 2016 - May 2017

- Successfully helped to transform NarinGames game server infrastructure to enhance user experience and performance.
- Designed and developed custom landing pages and back-end APIs.
- Restructured internal network infrastructure with Microtik and NAS, integrating collaboration and automation software (e.g., GitLab, local mail, and chat servers).

Soft Skills

- Critical thinking
- Communication

- Mentoring
- Leadership

- Teamwork
- Problem-solving

Hard Skills

- PHP/Laravel
- Docker
- Rest API
- WebSocket
- MongoDB

- MySQL
- Clean Architecture
- Design Patterns
- SOLID
- DDD

- Linux
- Nginx
- OAuth2
- Redis
